CONTAINS 6 tent
pole sections and
10 tent pegs

INSTRUCTIONS FOR ASSEMBLING TENT

1-Cut a piece of corrugated cardboard 14" x 31" to use as base for setting up tent.

2-Lay tent flat on cardboard with two guy line loops on top. (see illustration). Make sure side #1 of tent is about one inch in from edge of board.

3-Put a peg-thru each of 3 rope loops at side #1 of tent and fasten by inserting peg into board. (If this is difficult, pre-punch board with pencil.)

4-Join 3 of the 6 pieces of tent pole sections to form a tent pole by inserting plugs into tent pole openings at either end — repeat with remaining 3. (See illustration.)

5-Insert small end of tent pole into underside of either eyelet and stand tent pole straight up. This raises one end of tent.

6-Keeping pole straight, put a peg thru the rope loop nearest pole on side #2 of tent and fasten by inserting peg into board. Draw guy line nearest pole taut and fasten with peg.

7-Repeat steps #5 and #6 for other end.

8-Insert pegs in remaining loop of side #2 and flap loops at each end.
